

40 years of occupation of the Palestinian Territories

On June 9, 2007

« THE WORLD SAYS NO TO ISRAELI OCCUPATION! »

Israel prevents the practice of the right to self-determination of the Palestinian people which has to be implemented in the Palestinian Territories occupied by Israel since June 1967, comprising the West Bank, East Jerusalem and the Gaza Strip and delimited by the 1949 cease-fire border (the Green line). But Palestinian suffering dates back further to 1948, since nearly 60 years.

Israel has for the last 40 years methodically undertaken the dismantling and the fragmentation of the occupied Palestinian territories. If Israel achieves this policy of annexation and colonization of the Palestinian Territories, what will be left will soon represents only 40% of the occupied territories.

Israel has 40 years ago illegally annexed East Jerusalem in order to integrate it officially into the Israeli territory and has been multiplying unilateral measures aiming to modify the demographic characteristics and the city's status.

For 40 years Israel has confiscated and seized Palestinian land to install settlements. More than 460 000 Israeli settlers have settled down in the occupied Palestinian territories (260 000 in the West Bank and 200 000 in East Jerusalem) and have gained advantage from road networks and infrastructures constructed in the Palestinian territories for the exclusive use of settlers.

The Israeli policy of colonization has been strengthened with the construction of the Wall. 80% of the Wall's layout finds itself inside the Occupied Palestinian Territories. Its objective is to reinforce and finalize the annexation measures of Israeli settlements and of East Jerusalem, which is cut off from the West Bank and which Palestinians from the West Bank and Gaza cannot access.

In spite of all the resolutions adopted by the United Nations and the condemnation stated by the International Court of Justice in its advisory opinion of the 9th of July 2004, ruling the illegality of the Wall and reminding the illegality of the settlements and the annexation of East Jerusalem, Israel has continued to stand in violation of international law and international humanitarian law.

The inactivity of the international community regarding the splitting up of the Palestinian territories and the living conditions imposed by the Israeli military occupation cannot continue. Measures have to be taken urgently otherwise this inactivity will lead to the end of any prospect of a just and sustainable peace between Palestinians and Israelis.

That is why, June 9, 2007, will be the date of a Global Day of Action in order to call our governments to:

- **Take effective measures in order to force Israel to withdraw from the Palestinian territories occupied in 1967, dismantle all its settlements in the West Bank and in East Jerusalem and its Wall built inside the West Bank and East Jerusalem;**
- **Act for the resumption of negotiations between Palestinians and Israelis through an international conference on the Middle East which will aim the creation of a viable and independent Palestinian State within the 1967 "borders" with East Jerusalem as its capital, living side by side with Israel and the settlement of the unresolved questions.**

**On June 9, 2007 all together to say NO to Israeli Occupation
of the Palestinian Territories!**
